

Diaphragm Deluge Valve

Model:ZSFM

Features

- 1) Ductile iron construction valve body, less weight and extra strength.
- 2) Available for electric operation, hydraulic operation, manual operation.
- 3) The all moving parts can be serviced without removing the valve from the installed position.
- 4) Simple design for easy installation and operation.
- 5) Vertical or horizontal installation.
- 6) CCCF certificated.

Specification

Material	Body	Ductile iron
	Diaphragm	NBR rubber
	Pipes	Galvanized pipe, cooper pipe
	Ball valve & strainer & check valve	Brass
	Water motor gong	Carbon steel
Working pressure	12 bar	
Sealing testing pressure	24 bar	
Applicable temperature	4°C to 70°C	
Installation	Vertically or horizontally	
Flow switch contact capacity	DC24V, 0.5A	
Solenoid valve Voltage	DC24V	
Connection	Flange × Flange	
Available Size	DN50 thru DN250 (2" thru 10")
